Supervisor.	Yumna Khalid	
Batch.	2403B1	
Group.		
Serial No.	**Enrollment Number**	**Student Name**
1.	Student1555325	IBAD ULLAH SIDDIQUI
2.	Student1552018	NOMAN ULLAH
3.	Student1555925	MUHAMMAD ASAD KHAN
4.	Student1555921	QASEEM UL HASSAN

ACKNOWLEDGEMENT

The first, we would like to express my special thanks of gratitude to my teacher Yumna Khalid, who helped us a lot in finalizing this project withinthe limited time frame, valuable counselling and assistance for the accomplishment of this project.

Secondly we would also like to thank the eProject team at Aptech Head Office, who gave us the golden opportunity to do this wonderful project about Marina Fleet.

Thirdly, we also thank the eProject team, some of the benefits are as under:

- Re-enforcement of skills happens in the experiential learning process.
- A mentor, ensuring that we do not get drifted, constantly guides us.
- It gives us a lot of confidence to face an interview as we have worked on a project. We can explain virtually everything on the subject we have learn.

SYNOPSIS

Bid spirit is a web-based service that provides online auctioning solution for auction houses. It provides a bidding environment for online bidders and an end-to-end solution for the auction house.

As you all know that bid spirit is one of the best and biggest trends in world as most of the of the countries do bidding. Many founders and CEO of famous company and museum do it for there collection.

PROBLEM DEFINITION

Bid Spirit is the world's leading online marketplace for fine art, antiques, furniture and collectibles. We make it easy for collectors from around the world to discover and acquire the items they are most passionate about all in one place.

Bid Spirit e-auctioning portal is one of the most preferred sites in the industry. It is certainly, a smart and modern substitute to manual auctions. We aim to provide real-time pricing and ensure to facilitate wider participation of bidders, thus offering better selling rates.

Bid Spirit e-auction platform has been helping clients carry customized online auctions, in such a way that their profit is maximized. Now, the time to get stuck in the lengthy auctioning paperwork has gone; we have brought a revolutionized technique, where the entire process can be carried under your fingertips.

You are supposed to create a Single-Page-Application and responsive Website for them with the below mentioned requirement specifications.
The website should work well in all leading browsers including Chrome, IE, Firefox etc.

CUSTOMER REQUIREMENT SPECIFICATION (CRS)

The portal will be designed as a Single-Page-Application and responsive Website with a set of pages and menus that represent choice of activities to be performed. The pages, menus, and other visual elements must be designed in a visually appealing manner with attractive fonts, colors, and animations.

All of these should also be laid out in a responsive manner
The Web site is to be created based on the following requirements.

1) The Top of the Page should be presented with a suitable logo and images of antiques and fine arts.

2) Various sections should be provided as fine art, antiques, furniture and collectibles etc. with proper listing of products and their base price.

3) Clicking on these products should open pop-up window with details of these products.

4) Various other sections as Popular Items, Sponsored Auctions, Upcoming Online Auctions, and Completed Auctions etc. should be provided.

- Items should be listed under these sections with proper details.

5) The home page should accept first name from the user and display a personalized welcome message. At the top corner, the user's first name should be displayed for the entire duration that the portal is loaded.

6) Feedback must be allowed to enter by the viewer

7) Site map, Gallery, about us, contact us link must be added.

8) About Us and Contact Us: This menu option should display Email id, address, and contact number of the organization.
Over and above this, the portal should implement the following functionalities:

- Display a continuous scrolling ticker at the bottom of the page with current date,
- time, and location (hint: Use geolocation features of HTML5).
- Display a visitor count at the top right corner of the page beside a logo image.
- The menu options should change color on hover and also after clicking.
- Fade in and fade out options can be used for the menus.4

SCOPE OF THE WORK (IN BRIEF)

The website is to be developed for the Windows Platform using HTML5, JavaScript and Geolocation. The site should work well in all leading browsers including Chrome etc..

Homepage show Top best sell items, big sale, collection, new shop...

Every content direct to relative content.
